

Solution Architecture

Date	01 October 2026
Team ID	SWTID-2026-5235
Project Name	Import Data Using Transform Maps (Spreadsheets)
Maximum Marks	5 Marks

Solution Architecture Diagram:

Provide a high-level visual representation of the employee spreadsheet import solution, showing the ServiceNow user interface, import and transformation process, validation and Coalesce, and the tables where data is stored.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
Presentation Layer	Provides the user interface for preparing and uploading employee spreadsheet data and reviewing import results.	ServiceNow Web UI, Microsoft Excel
Import / Transformation Layer	Stages spreadsheet records, maps source fields to target fields, transforms the data, and runs the import workflow.	Import Set Table, Transform Map
Data Validation & Integrity	Validates employee data and uses Employee ID with Coalesce to update existing records and prevent duplicate records.	Validation rules, Field Mapping, Coalesce
Database / Reporting	Stores staged and target employee records and provides reporting and dashboard views of import results.	Employee Test Table, Reports, Dashboard
